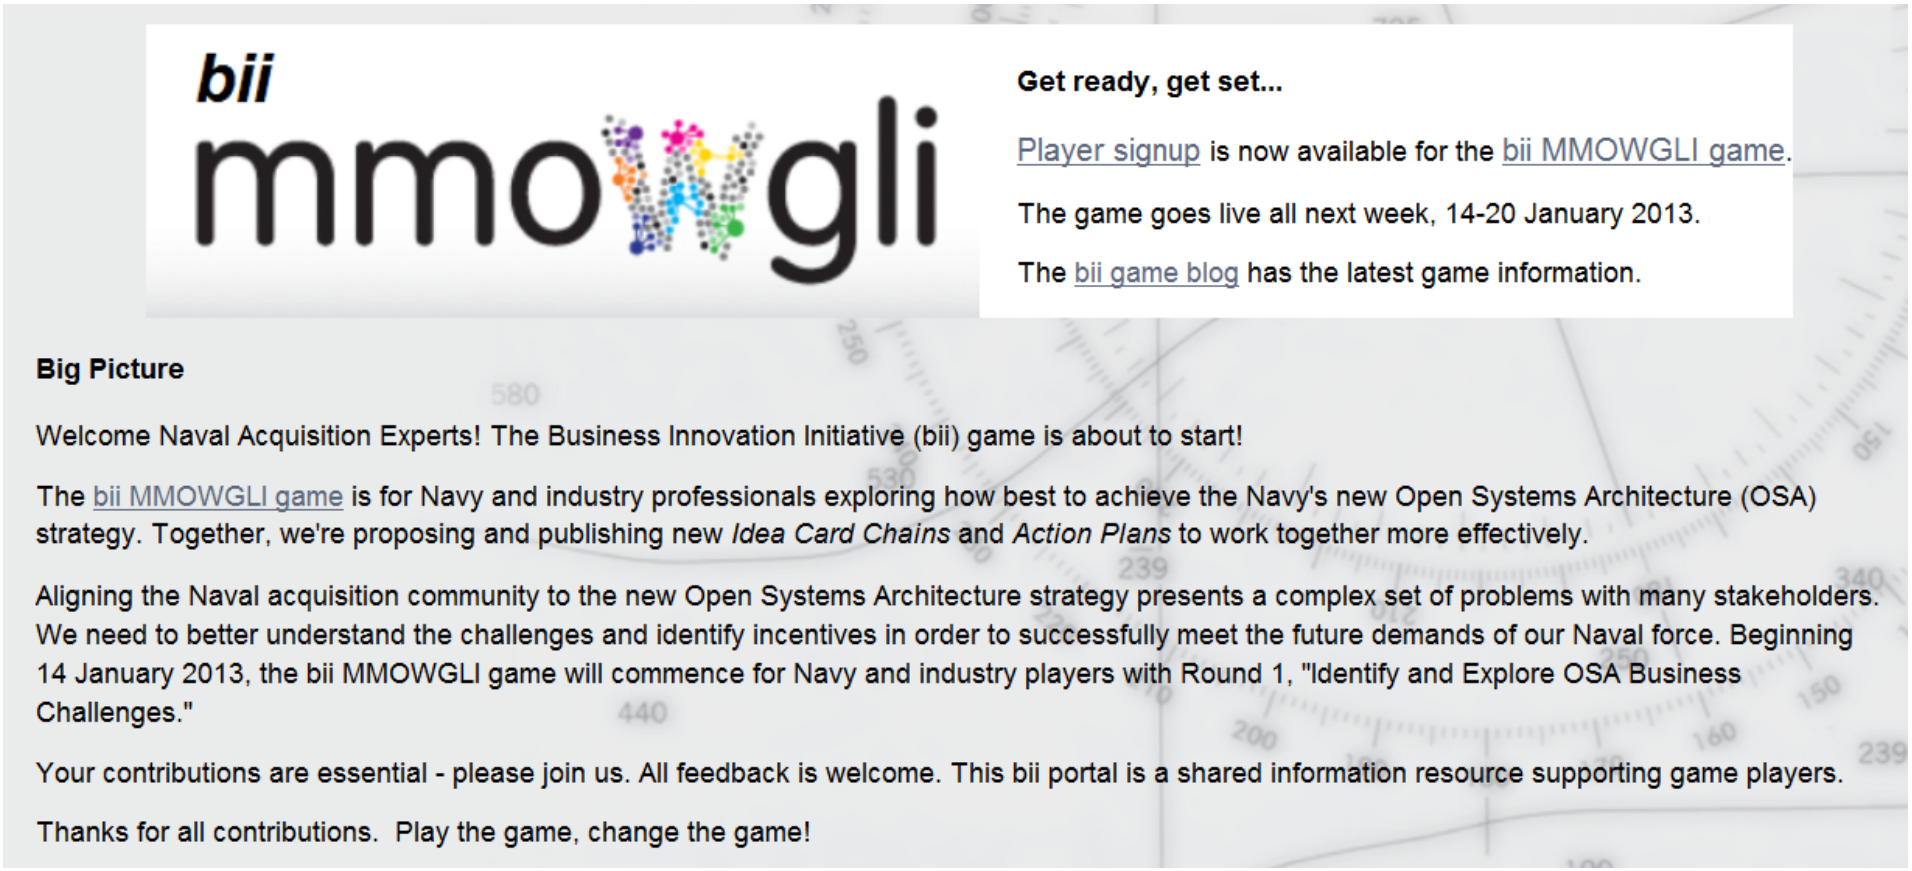
- Change acquisition processes to adopt TRFs
- Increase competition

Business Innovation Initiative (bii) MMOWGLI Online Game



bii
mmowgli
Get ready, get set...
Player signup is now available for the bii MMOWGLI game.
The game goes live all next week, 14-20 January 2013.
The bii game blog has the latest game information.
Big Picture
Welcome Naval Acquisition Experts! The Business Innovation Initiative (bii) game is about to start!
The bii MMOWGLI game is for Navy and industry professionals exploring how best to achieve the Navy's new Open Systems Architecture (OSA) strategy. Together, we're proposing and publishing new Idea Card Chains and Action Plans to work together more effectively.
Aligning the Naval acquisition community to the new Open Systems Architecture strategy presents a complex set of problems with many stakeholders. We need to better understand the challenges and identify incentives in order to successfully meet the future demands of our Naval force. Beginning 14 January 2013, the bii MMOWGLI game will commence for Navy and industry players with Round 1, "Identify and Explore OSA Business Challenges."
Your contributions are essential - please join us. All feedback is welcome. This bii portal is a shared information resource supporting game players.
Thanks for all contributions. Play the game, change the game!
